Fresh Water Tanks: 1100Gallons

Fuel Tanks: 1350Gallons

General Boat Description

2005 Californian 3900 SL

Twin Volvo Penta Diesels | 15\' Beam | Two Staterooms | Two Heads

Description

The 2005 Californian 3900 SL offers an exceptional amount of living space, comfort, and cruising capability in a manageable 40-foot motor yacht. With her impressive 15-foot beam, spacious pilothouse, generous flybridge, and wide walk-around decks, she provides the accommodations and functionality often found aboard considerably larger yachts.

Powered by twin Volvo Penta KAMD300-A 285 HP diesel engines with approximately 700 hours, along with a Northern Lights 12 kW generator showing approximately 1,000 hours, she offers an appealing machinery package for coastal cruising.

Her desirable two-stateroom, two-head layout features queen berths in both cabins, each with its own head and separate stall shower—an outstanding arrangement for cruising with family or another couple.

The bright pilothouse and salon offer excellent visibility, comfortable seating, and warm wood cabinetry, while the fully equipped galley makes weekends and extended stays aboard equally enjoyable. Dual helm stations provide flexibility for operating in changing weather conditions, and the spacious flybridge offers a wonderful setting for entertaining.

Whether cruising to Catalina, exploring the Southern California coastline, or enjoying time aboard at the dock, this Californian 3900 SL delivers an impressive combination of comfort, practicality, and value.

Notable Features

- Twin Volvo Penta KAMD300-A diesel engines, 285 HP each
