Max Draft: 7.00 ft

Displacement:10.00 lb 10.00</br>

Ballast Weight: 3.00 lb

Cabin Head room: 6.17 ft

Beam: 11.50 ft

Engines

Total Power: 28|horsepower

Engine Brand: Volvo

Year Built: 0

Engine Type: Inboard

Engine/Fuel Type: diesel

Engine Hours: 0

Engine Power: 28|horsepower

Tanks

Fresh Water Tanks: 121Gallons

Fuel Tanks: 118Gallons

General Boat Description

2002 J109

Performance, versatility, and a proven racing pedigree.

The J/109 has earned a well-deserved reputation as one of J Boats\' most successful performance racer/cruisers. Designed to deliver exciting sailing performance without sacrificing comfort, the J/109 combines a responsive hull, manageable sail plan, and practical cruising accommodations in a versatile 35-foot package.

With its retractable bowsprit, asymmetric spinnaker configuration, and well-designed cockpit, the J/109 is equally at home competing around the buoys, racing offshore, or enjoying a weekend at Catalina Island.

The J/109 has established a strong connection with the Southern California racing community, where performance-oriented sailors appreciate boats that can compete in local handicap racing, coastal regattas, and offshore events. Its combination of speed, simplicity, and versatility makes it particularly well suited to the varied sailing conditions of Southern California.

Mariah, a 2002 J/109 located in Long Beach, offers an opportunity to own a respected performance design with the added benefit of comfortable accommodations for family cruising and weekend adventures.

Sailing Performance

Designed by Johnstone, the J/109 features a fractional rig, retractable bowsprit, and asymmetric

spinnaker configuration. Its efficient deck layout and responsive handling make it an appealing choice for competitive racing crews while remaining manageable for recreational sailing.

Accommodations

The J/109 offers a functional cruising interior with a forward cabin, main salon, galley, enclosed head, and aft sleeping accommodations. The layout provides a practical balance between racing performance and comfortable overnight cruising.

Recent Work & Improvements

- **2018** – New standing rigging
- **2021** – New autopilot
- **2023** – New two-blade Gori propeller
- **2024** – New Raymarine Axiom 9 chartplotter
- **2025** – New refrigerator and stove
- **2026** – Saildrive serviced
- **2026** – New engine mounts

Broker\'s Comments

Mariah is an actively raced J/109 with several worthwhile upgrades and improvements completed in recent years. She is not a pristine example and would benefit from some additional attention, particularly for an owner looking to optimize her competitive performance. For a sailor who enjoys being involved in their boat\'s development, Mariah offers the opportunity to build upon an actively sailed and proven performance design.
