Engine Power: 57|horsepower

Tanks

Fresh Water Tanks: 1140Gallons

Fuel Tanks: 166Gallons

General Boat Description

Hull #9 of the new Dufour 48 is now available in Annapolis, Maryland, offering an exceptional opportunity to acquire one of Dufour’s latest performance cruising yachts without the uncertainty of a long factory wait. Built for the 2026 model year and delivered with U.S. specifications, this vessel combines contemporary design, efficient sailing performance, and the comfort expected from a modern bluewater cruiser.

Designed with both private ownership and charter versatility in mind, the Dufour 48 features a well-balanced hull, twin helm configuration, and generous outdoor living spaces, including a spacious cockpit and integrated aft platform. The interior layout is thoughtfully configured to maximize volume, natural light, and functionality, making it equally suited for extended cruising or high-end charter use.

Equipped with a Volvo Penta 57 HP saildrive engine, along with a carefully selected list of factory and dealer-installed options, Hull #9 is positioned as a turnkey solution for buyers seeking immediate availability on the U.S. East Coast. The vessel has been commissioned to meet U.S. standards and is available for handover in the Fort Lauderdale area.

This is a rare chance to secure a current-generation Dufour 48 already delivered stateside, avoiding production lead times while benefiting from a fully specified and professionally prepared yacht.
